Walt Whitman, born in New York in 1819, was one of American's unusual literary figures. As an individualist, he **rambled** through the countryside seeing people and places, and **making them his own**. His experiences in earning a living were varied : at times he was a printer, a teacher, a carpenter, a nurse, and a newspaper editor. He was a big hearted man, open and accepting. He gave freely of his time by caring for the wounded during the Civil War. Though he lived in the city, he often spent time in the country, developing his strong sense of nature, which carried through to his poems. In 1855, he collected the verses he had written, and published them in one thin volume, "Leaves of Grass" a book which he revised and rewrote all the rest of his life. The book was ridiculed by some poets and generally ignored by the others, probably because his verse forms were not traditional. He had felt that it was necessary to achieve a new poetic form in order to communicate his views. His reputation didn't grow until after his death, and it reached a high point in 1920s. Since then, Whitman's style has greatly influenced modern poets.

Read the passage carefully and choose the correct answer A, B, C or D to complete the following sentences.

It is very important to have healthy teeth. Good teeth help us to chew our food. They also help us to look nice. How does a tooth go bad? The decay begins in a little crack in the enamel covering of the tooth. This happens after germs and bits of food have collected there, then the decay slowly spreads inside the tooth. Eventually, poison goes into the blood, and we may feel quite ill.

How can we keep our teeth healthy? Firstly, we ought to visit our dentist twice a year. He can fill the small holes in our teeth before they destroy the teeth. He can examine our teeth to check that they are growing in the right way. **Unfortunately**, many people wait until they have toothache before they see a dentist. Secondly, we should brush our teeth with a toothbrush and fluoride toothpaste at least twice a day - once after breakfast and once before we go to bed. We can also use wooden toothpicks to clean between our teeth after a meal. Thirdly, we should eat food that is good for our teeth and our body: milk, cheese, fish, brown bread, potatoes, red rice, raw vegetables and fresh fruit. Chocolates, sweets, biscuits and cakes are bad, especially when we eat them between meals. They are harmful because they stick to our teeth and cause decay.
