- Peter: "Well, cats are very good at catching mice around the house"

- Linda: "

A. Nothing more to say. B. You can say that again. C. Yes, I hope so. D. No, dogs are good, too.

# Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct word or phrase that best fits each of the numbered blanks.

The invention of the mobile phone has undoubtedly revolutionized the way people communicate and influenced every aspect of our lives. The issue is whether this technological innovation has (25) \_\_\_\_\_ more harm than good. In order to answer the question, we must first turn to the types of consumers. Presumably, most parents (26) \_\_\_\_\_ are always worrying about their children's safety buy mobile phones for them to track their whereabouts. We can also assume that most teenagers want mobile phones to avoid missing out on social contact. In this context, the advantages are clear. (27) \_\_\_\_\_, we cannot deny the fact that text messages have been used by bullies to intimidate fellow students. There is also (28) \_\_\_\_\_\_ evidence that texting has affected literacy skills.

The widespread use of mobile phone has, out of question, affected adult consumers too. What employee, on the way home from work, would be reluctant to answer a call from their boss? Apparently, only 18% of us, according to a survey, are willing to switch off our mobile phones once we've left the office.

Admittedly, mobile phones can be intrusive but there are obvious benefits to possessing one. Personally speaking, they are invaluable when it comes to making social or business arrangements at short (29) \_\_\_\_\_. They also provide their owners with a sense of security in emergency situations.

Question 25: A. done	<b>B.</b> played	C. made	<b>D.</b> brought
Question 26: A. which	<b>B.</b> whom	C. who	<b>D.</b> what
Question 27: A. Moreover	<b>B.</b> However	$\overline{\mathbf{C}}$ . Therefore	<b>D.</b> So that
Question 28: A. indisputable	<b>B.</b> arguable	<b>C.</b> doubtless	<b>D.</b> unhesitating
Question 29: A. time	<b>B.</b> warning	C. term	<b>D.</b> notice

## Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions.

In Africa, people celebrate with joy the birth of a new baby. The Pygmies would sing a birth-song to the child. In Kenya, the mother takes the baby strapped to her back into the thorn enclosure where the cattle are kept. There, her husband and the village elders wait to give the child his or her name.

In West Africa, after the baby is eight days old, the mother takes the baby for its first walk in the big, wide world, and friends and family are invited to meet the new baby. In various African nations, they hold initiation ceremonies for groups of children instead of birthdays. When children reach a certain designated age, they learn the laws, beliefs, customs, songs and dances of their tribes. Some African tribes consider that children from nine to twelve are ready to be initiated into the grown up world. They may have to carry out several tests.

Maasai boys around thirteen years old to seventeen **<u>undergo</u>** a two-stage initiation. The first stage lasts about three months. The boys leave their parents' homes, paint their bodies white, and are taught how to become young warriors. At the end of this stage, they have their heads shaved and they are also circumcised. At the second stage, the

**D.** Well, it's worth a try.

young warriors grow their hair long and live in a camp called a "manyatta" where they practice hunting the wild animals that might attack the Maasai herds. This stage may last a few years. When **they** are ready, they will marry and become owners of large cattle herds like their fathers. The girls are initiated when they are fourteen or fifteen. They are taught by the older women about the duties of marriage and how to care for babies. Soon after that they are married and lead a life similar to that of their mothers.

## Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions.

What picture do you have of the future? Will life in the future be better, worse or the same as now? What do you hope about the future?

Futurologists predict that life will probably be very different in 2050 in all the fields, from entertainment to technology. First of all, it seems that TV channels will have disappeared. Instead, people will choose a program from a 'menu' and a computer will send the program directly to the television. Today, we can use the World Wide Web to read newspaper stories and see pictures on a computer thousands of kilometers away. By 2050, music, films, programs, newspapers and books will come to us by computer.

In what concerns the environment, water will have become one of our most serious problems. In many places, agriculture is changing and farmers are growing fruit and vegetables to export. <u>This</u> uses a lot of water. Demand for water will increase ten times between now and 2050 and there could be serious shortages. Some futurologists predict that water could be the cause of war if we don't act now.

In transport, cars running on new, clean fuels will have computers to control the speed and there won't be any accidents. Today, many cars have computers that tell drivers exactly where they are. By 2050, the computer will control the car and drive it to your destination. On the other hand, space planes will take people halfway around the world in two hours. Nowadays, the United States Shuttle can go into space and land on Earth again. By 2050, space planes will fly all over the world and people will fly from Los Angeles to Tokyo in just two hours.

In the domain of technology, robots will have replaced people in factories. Many factories already use robots. Big companies **prefer robots** - they do not ask for pay rises or go on strike, and they work 24 hours a day. By 2050, we will see robots everywhere - in factories, schools, offices, hospitals, shops and homes.

Last but not least, medicine technology will have <u>conquered</u> many diseases. Today, there are electronic devices that connect directly to the brain to help people hear. By 2050, we will be able to help blind and deaf people see and hear again. Scientists have discovered how to control genes. They have already produced clones of animals. By 2050, scientists will be able to produce clones of people and decide how they look, how they behave and how much intelligence they have.

Question 35: The passage mainly discusses \_

A. The effect of the futurologists' prediction on our lives.B. The effect of telecommunication on our future life.D. The importance of cloning in the future.

Question 36: What can be inferred about the life in 2050 according to the passage?

A. Life in 2050 will be much better than that of today.

B. TV will be an indispensable means of communication and business.

C. People will not suffer from the shortage of water due to the polar melting.

**D.** The deaf will not have to depend any longer on the electronic hearing devices.

Question 37: We can conclude from the passage that in 2050 \_

A. People will be able to travel around the world in two hours.

<b>C.</b> No one will be injured or die because of accidents.
$\overline{\mathbf{D}}$ Characterized and the state of th
<b>D.</b> Space planes will take the place of cars as a means of transport.
Question 38: The word "This" in paragraph 3 refers to
A. the possible war. B. the cash crop planting.
<b>C.</b> the serious shortage. <b>D.</b> the demand for water.
Question 39: What is the author's attitude in paragraph 3?
A. concerned B. explanatory C. outraged D. emotional
Question 40: Why does the author use "prefer robots" in paragraph 5?
<b>A.</b> To show the importance of robots in production. <b>B.</b> To encourage the workers to resign from work.
<b>C.</b> To compare the robots with the workers. <b>D.</b> To emphasize the scientist's role in inventing robots.
Question 41: The word "conquered" in the last paragraph is closest in meaning to
A. controlled B. diagnosed C. transmitted D. caused
Question 42: What may NOT be true about life in 2050?
A. Many forms of entertainment will come to us thanks to computer.
<b>B.</b> Blind and deaf people will be helped by scientists to see and hear again.
<b>C.</b> Scientists will be able to produce clones of people and decide how intelligent they are.
<b>D.</b> Our sources of water for agriculture will increase ten times.
Mark the letter A, B, C, or D on your answer sheet to indicate the underlined part that needs correction in each of the
following questions.
