THE MUSCLES IN OUR BODY

Our human body is made up of many muscles. All these muscles work together to help you move. They form the muscle system. 650 muscles are wrapped around your bones. They basically cover the bones like a blanket. Muscles are fastened to the bones by tough bands. These bands are called tendons. You can see your tendons when you wiggle your finger. Moving your fingers back and forth makes your tendons move.

These muscles around the bone must be told when to move. They are controlled by your thinking. If you want to walk, talk or smile, you send a message to the brain. Your brain picks up the message. It receives it and processes it. Then it sends out an electrical signal through the nerves. The nerves make connections until the signal reaches the proper muscle. This signal tells a muscle what it has to do. The muscle simply does exactly what the brain tells it to do. When you jump, hundreds of muscles work to help you do that.

Muscles work all the time. They even work when you are fast asleep. They keep your body firm and strong. Therefore, it is important to be in good shape. You need to stay healthy so that your muscles can remain powerful too. One thing that muscles need is good food. Muscles develop when

they have protein. Milk, eggs, red meat, fish and beans are rich in protein. A healthy diet includes these food types. Muscles also need to be exercised to remain firm and toned. Regular exercise makes your muscles bigger, strengthens your heart and lungs and makes you more flexible. Good ways to exercise our walking, swimming, cycling, dancing or playing soccer. These activities improve your stamina. If you have good stamina, you can keep going for a long time without getting tired.

These days, most people in Britain and the US do not wear very formal clothes. But sometimes it is important to wear the right thing.

Many British people don't think about clothes very much. They just like to be comfortable. When they go out to enjoy themselves, they can wear almost anything. At theatres, cinemas and concerts you can put on what you like from elegant suits and dresses to jeans and sweaters. Anything goes, as long as you look clean and tidy.

But in Britain, as well as in the US, men in offices usually wear suits and ties, and women wear dresses or skirts (not trousers). Doctors, lawyers and business people wear quite formal clothes. And in some hotels and restaurants men have to wear ties and women wear smart dresses.
