READING

Work in pairs. Match the words / phrases with their pictures.

1. food waste
2. learning space
3. leftovers
4. cafeteria

Read the passages again and complete the sentences (p.23).

Teenovator is an annual competition by the City Teen Council. We ask teens to find problems of the city and suggest solutions. Here are this year's winners.

1. _____: Central School

They see that the more developed a city is, the more food people throw away. They suggest carrying out a project which turns food waste into energy. Students would sort their leftovers at school canteens. A nearby farm would come to take the food waste and process it into biogas.

2. _____: Bookworm Team

This team feels that many public amenities, particularly the city library, are not teen-friendly. They suggest a list of changes so that the library can attract more teens. Some of **them** include designing lively learning spaces for teens and having teen's favourite desserts in the cafeteria.

3. _____: Helena Wilson

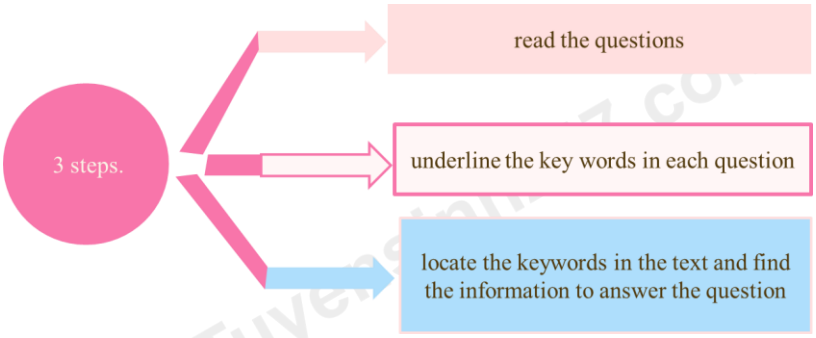

Helena realises that there are too many vehicles around school gates. This is unsafe for children who walk to school. She suggests that the city authorities not allow cars at school gates at drop-off and pick-up times. In addition, they should not let motorbikes park on the pavement near school gates.

A. The street-safe city	B. The teen-friendly city	C. The food-smart city	D. The waste-free city

Underline the city problem that each winner has found. If these problems are solved, how the city will be like?

Make a list of city problems and some solutions to them.

- Work in pairs and add as many details of problems of city life and solutions.

***Example*:**

Problems	Solutions
– Dirty streets	– Tell people to throw rubbish away properly
– Lack of green spaces	– Plant more trees

Work in pairs. Talk to your friends about the city problems and suggest solutions to them. You can use the ideas in 4.

Structures:

- I think/ In my opinion/I would say that...
- First, Second, Third.....
- Then, After that,.....
- On one hand, On the other hand.....

Sample answer:

We think that there are several problems in our city. First, some streets are dirty. Many people put rubbish on the pavements or near the walls. Second, the city looks like a concrete jungle. It lacks green space and the air is not fresh. To solve these problems, the city authority should instruct people to throw rubbish properly. Another solution is to plant more trees even on the roof of high buildings. By doing so, the city can be a more livable place.
